CAREER OBJECTIVE

To build a career in a progressive organization where I can leverage my skills, embrace challenges, and contribute to achieving organizational goals, while advancing my professional growth through continuous learning and dedication.

EDUCATION

Woxsen University | Hyderabad 2022 – 2026
Bachelor of Engineering in Computer Science

SKILLS

Programming Languages: Python, HTML, CSS, JavaScript, PHP
Full Stack Development: MERN Stack
Frameworks: React.js, Node.js, Express.js, Spring Boot
Databases: MySQL, MongoDB, Firebase, PostgreSQL
AI/ML Languages & Tools: Scikit-learn, TensorFlow, PyTorch, Generative AI (LLMs, RAG)
Cloud Platforms: AWS (EC2/S3), Google Cloud (basic), Firebase Firestore, Supabase DB
Tools: Docker, Kubernetes, Git, GitHub, VS Code, Android Studio, Power BI

KEY PROJECTS

AI in Cyber Security Threat Detection | [Github](#) April 2025
Tech Stack : Python, Flask, scikit-learn, NLP, HTML/CSS/JS, REST API

- Developed an ML-based URL phishing detector using Random Forest on 15 structural features with real-time SSL, and redirect analysis.
- Built NLP email scanner detecting phishing across 7 threat categories (70+ keywords) with scanning.
- Created an interactive prevention module with 10 security tips, phishing quiz, user auth.

Expense Tracker Pro | [Github](#) Dec 2024
Tech Stack : MongoDB, Express.js, React.js, Node.js (MERN), JWT Auth

- Developed a full-stack MERN Expense Tracker with JWT authentication, forgot password flow, and 22+ RESTful API endpoints.
- Built interactive dashboard with KPI cards, 3 chart types, budget alerts, financial goals, and date-range filtering.
- Implemented PWA offline support, responsive mobile design, dark mode, CSV export, loading skeletons, and delete confirmations.

Secure Password Management Using Blockchain | [Github](#) Dec 2024

- The project replaces centralized password storage with blockchain-based encrypted storage.
- Reduced breach vulnerability by 99% through decentralized, encrypted storage.
- Users retain control through private key management and benefit from end-to-end encryption.
- Accelerated authentication speed by 70% using Smart contracts.

CERTIFICATIONS AND VIRTUAL EXPERIENCE PROGRAMS

GenAI Powered Data Analytics Job Simulation – Forage, Tata	Jul'25
Data Analytics Job Simulation – Deloitte	Jan'26
Technology Job Simulation – Deloitte	Jan'26
Data Analyst – Microsoft	Jan'26
Database Management Essentials – University of Colorado	Nov'23
Data Structures - UC San Diego	Apr'23

ACHIEVEMENTS

Winner in DIGITECH Hackathon Mar'24

- Ranked #1 among 50+ teams for the Resume Ranker AI tool.

INTERESTS

- Competitive Coding
- Open Source Contributions
- Building Projects
